

CD 1325 | 1330

DIGITAL MULTI-FUNCTIONAL SYSTEM

CD 1325 | 1330

## THEY'VE GOT WHAT IT TAKES.

No one minds making room in the office for the CD 1325 or CD 1330. These compact b/w multifunctionals are the perfect all-in-one systems for efficient printing, copying, scanning, and also faxing if required. Offering a wealth of specialist features and functions for busy teams and whole departments these all-rounders excel with remarkable productivity and versatility. The optional document processor's automatic handling of mixed originals and the super-fast colour scan system with up to 600 dpi resolution are just two examples for the intelligent functionality that makes working with the CD 1325 and CD 1330 enjoyable for everyone in the office.

### ALL-IN-ONE SYSTEMS FOR MULTIPLE APPLICATIONS.

The CD 1325 and CD 1330 digital multifunctional systems are designed to impress. They are highly flexible and extremely user-friendly – for all every-day office tasks important features are immediately accessible, thanks to the USB and network interfaces. With 25 and 30 A4 pages per minute, respectively, a memory of 512 MB RAM, an 80 GB hard disk and a powerful 400 MHz processor smooth multi-tasking is guaranteed and waiting times are minimised. Additionally, urgent jobs can be printed as PDF files directly from a USB stick.

The large adjustable operation panel is equipped with a colour LCD touch panel and a graphic user interface that includes thumbnail previews. This facilitates, for example, the programming and extra-fast recall of up to 50 recurring copy or scan jobs. And if the confidentiality of documents is important, the optional data security kit reliably protects against unauthorised access to sensitive information. On top of all this, a choice of finishers makes professional completion for all document types easy. When equipped with the optional fax system the CD 1325 and CD 1330 will transmit a fax within 3 seconds – all of which combine to achieve perfect performance!
